HORIZON + H4 GAS FIREPLACES

A LEADER IN PERFORMANCE
AND VALUE.

valor[®]
FIREPLACES

THE SCIENCE OF WARMTH™

We pioneered and are constantly improving our radiant heat technology that generates the comfortable warmth you'll feel in your home.

EFFICIENCY

Radiant zone heating is up to 25% more efficient than central forced air systems.

REMOTE CONTROL

Adjustable flame for constant, even warmth without having to cycle the fire on and off—or leave the sofa.

LOW TURNDOWN

You can turn your fire's flames down low for comfort and enjoyment.

REALISTIC LOGS

High definition, low mass fiber ceramic logs heat up and glow quickly, radiating warmth.

PROUDLY MADE
IN NORTH AMERICA

RADIANT HEAT

What's makes Valor unique?
We put radiant heat technology
into every fire. You can feel it.

CONVECTIVE HEAT

Secondary Heat Exchanger
naturally improves convective
heat—without a fan.

V-CLASS BURNER

Our steel burners creates an
enhanced flame and ember glow.

NO POWER. NO PROBLEM.

Valor fireplaces heat without
electricity—even in a power failure.

CERAMIC GLASS

Durable and robust ceramic glass
improves radiant performance.

SUPERIOR ALUMINIZED STEEL

Aerodynamic aluminized steel
firebox handles high temperatures,
delivering efficient radiant warmth.

SAFETY

Our fires are put through
rigorous safety testing in our
in-house CSA approved lab.

DRIFTWOOD TRENDING

1 LOGS + ROCKS

We designed these expertly crafted logs and rocks as realistic-looking as possible, and engineered them to harness radiant heat from the flames and glowing embers.

Visit your local Valor dealer to see a fire or for a video, go to valorfireplaces.com/horizon

REMOTE CONTROL

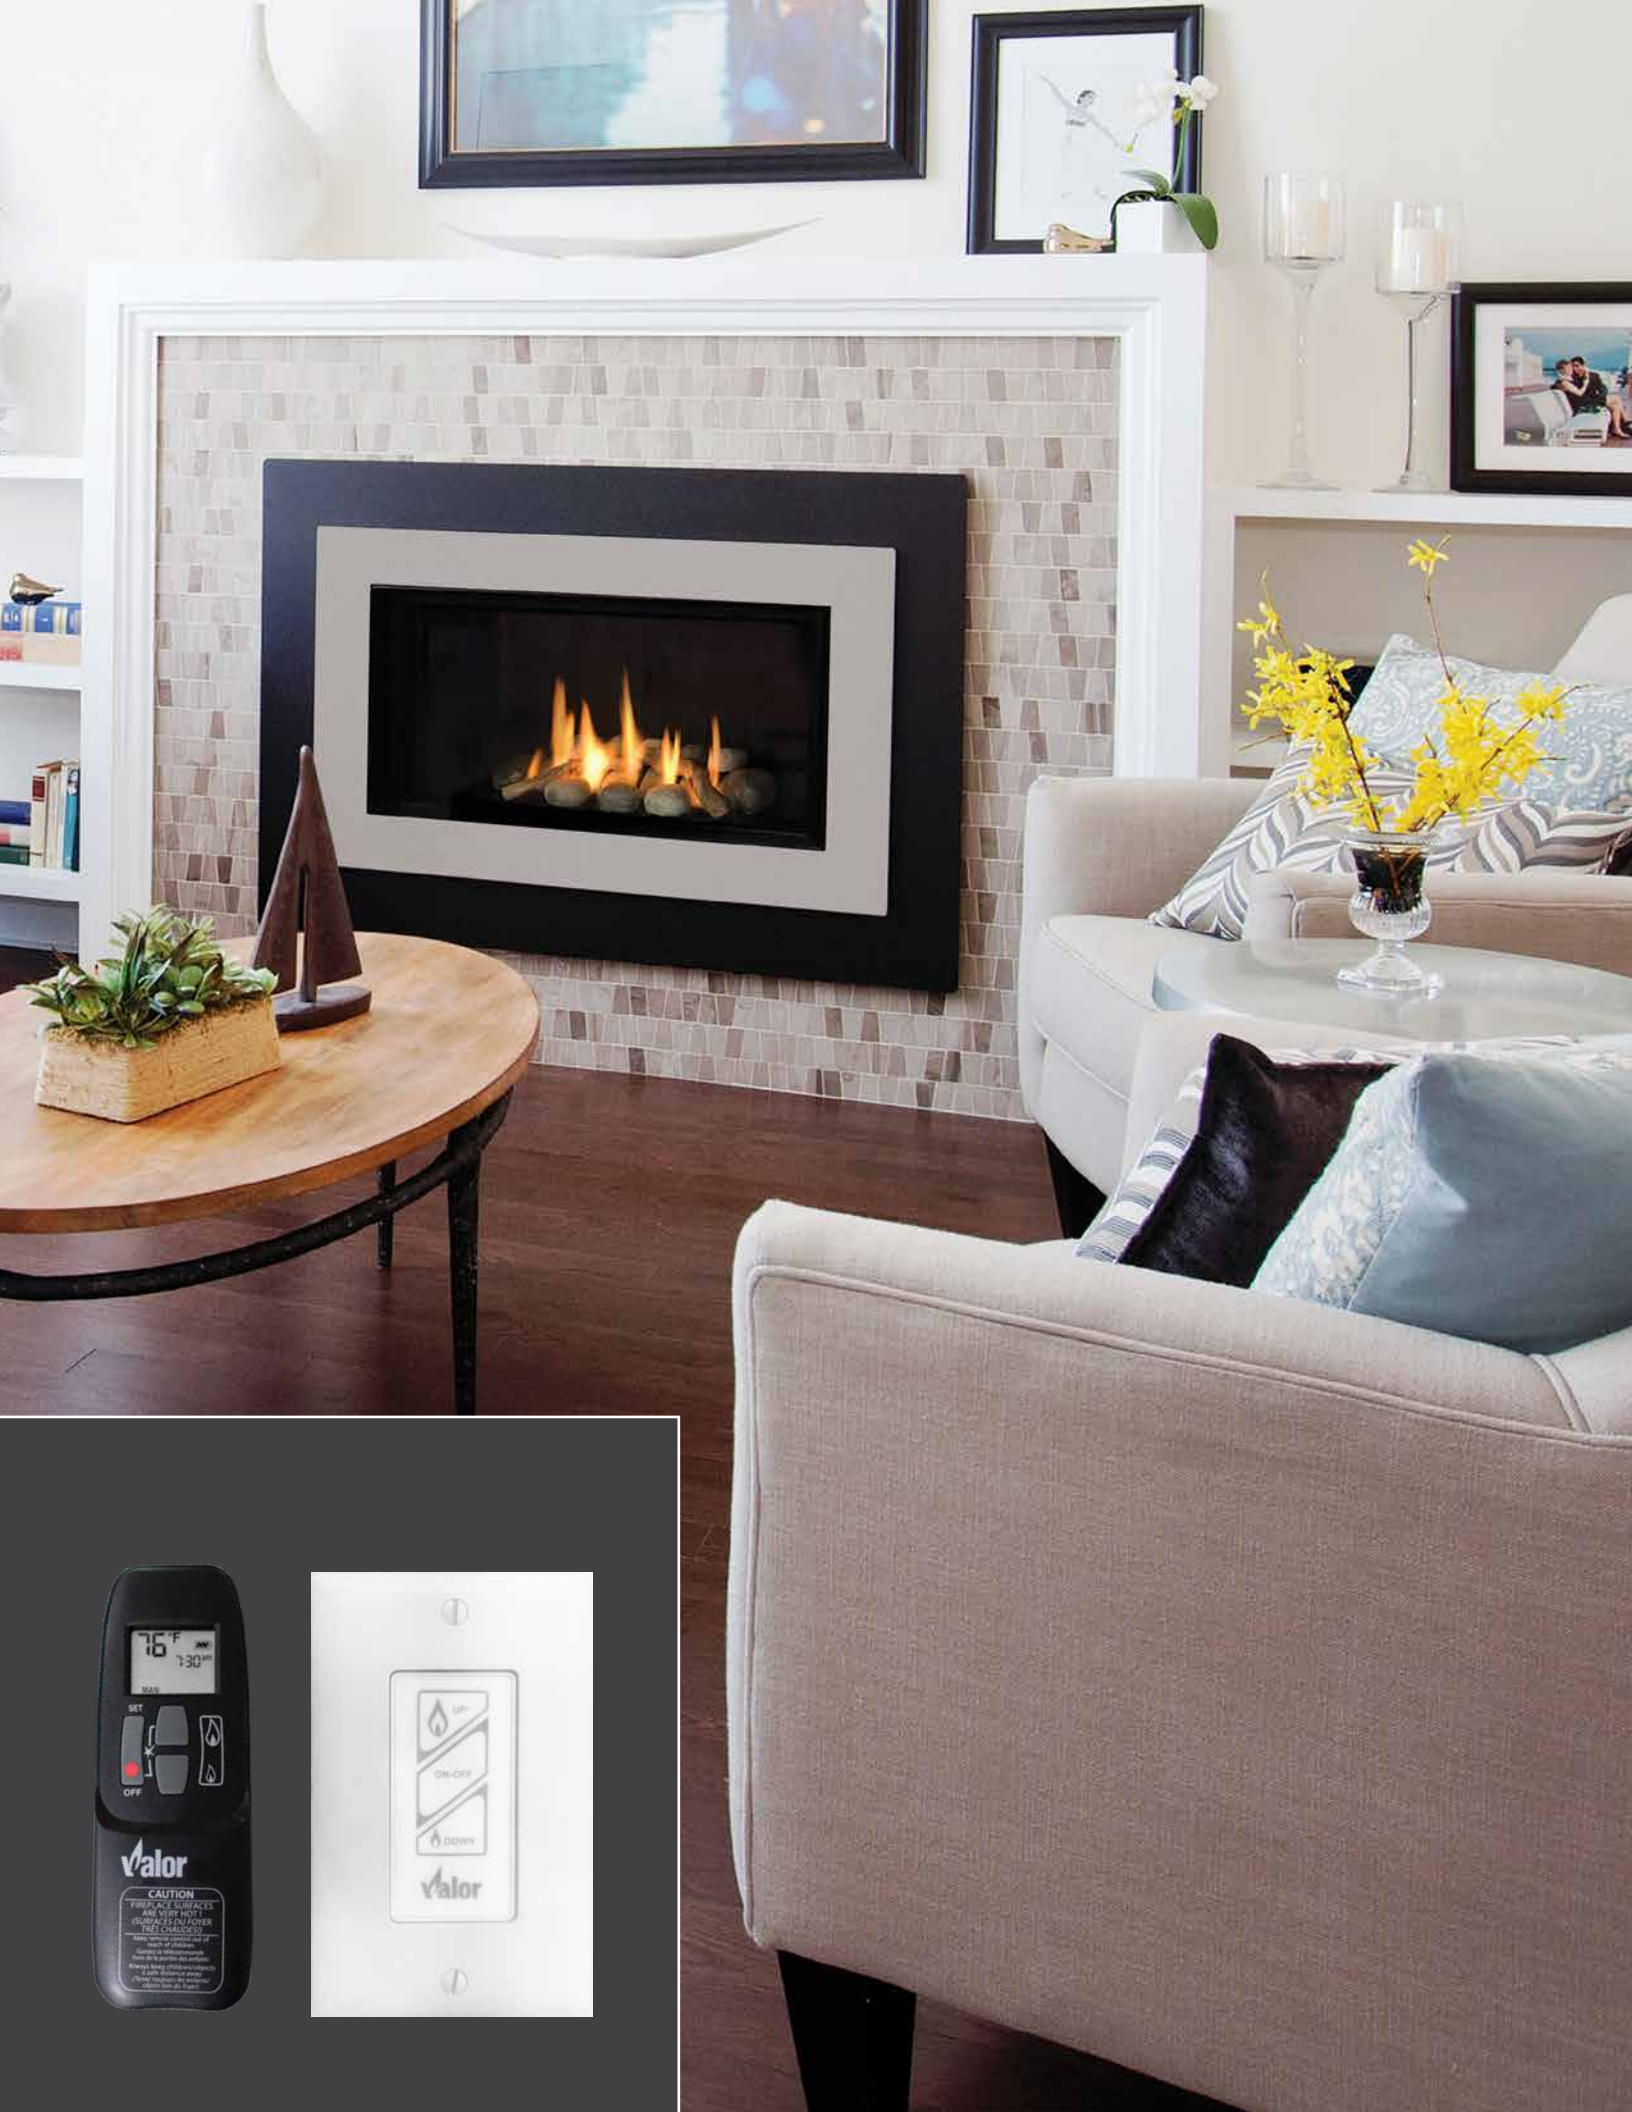

VALOR REMOTE GV60

Every Valor fireplace comes with a remote. You can select, adjust or program your desired temperature with your remote—the fire automatically adjusts to maintain the temperature of the room. You can even turn your pilot light on or off from the comfort of your sofa.

WALL SWITCH 1265WSK

Can't find your remote? A wall switch allows you to do basic functions, such as turn your fireplace on and off, and adjust the flame. To find out more, visit valorfireplaces.com/remote

ENERGY EFFICIENCY

EFFICIENCY RATINGS

While the North American fireplace industry is largely self-regulated, at Valor we use recognized Canadian and US government testing methods to determine our energy efficiencies, and ensure our products perform in your home as rated. All our fireplaces are available as natural gas or propane.

Secondary Heat Exchanger

The built-in Secondary Heat Exchanger naturally improves convective heat—removing the need for a fan. Your fire will heat up fast for immediate comfort—and no electrical hookup will save you money. To find out more, visit valorfireplaces.com/efficiency

HORIZON + H4 EFFICIENCY

| Model | Fuel | Max. Input | Min. Input | Max. Output* | EnerGuide 70.9% |
|----------------|------|------------|------------|--------------|--------------------|
| 534JN 650JN | NG | 24,000 | 6,500 | 17,506 | |
| 534JP 650JP | LPG | 24,000 | 13,000 | 17,506 | |

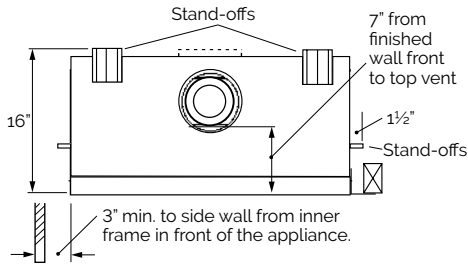

* EnerGuide Ratings and outputs have been determined without a fan/blower, using the CSA P4.1-15 test method.

Certified to ANSI Z21.88/ CSA 2.33 Vented Gas Fireplace Heater American National Standard. CGA-2.17-91 Gas Fired Appliances for use at High Altitudes.

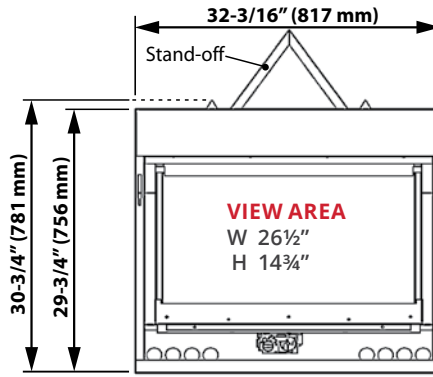

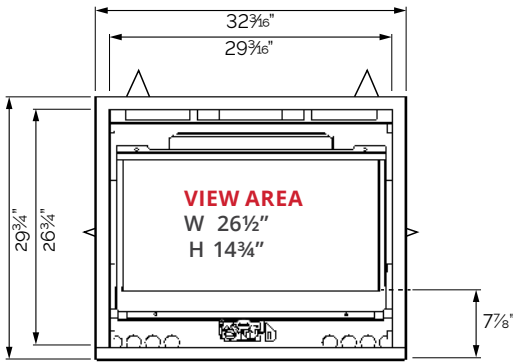

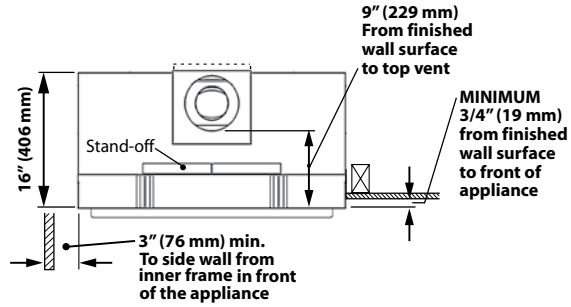

DIMENSIONS

HORIZON

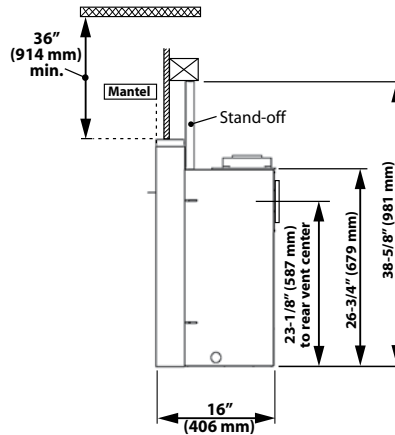

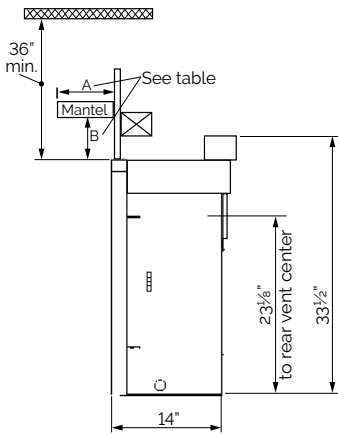

H4

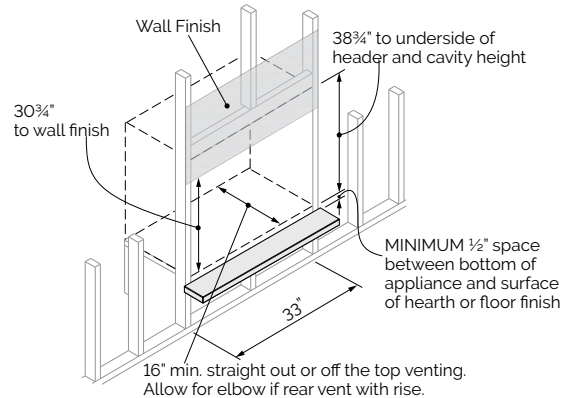

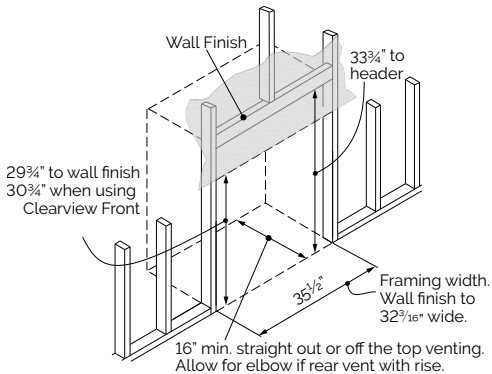

½" between bottom of appliance and surface of hearth or floor finish.

VENTING

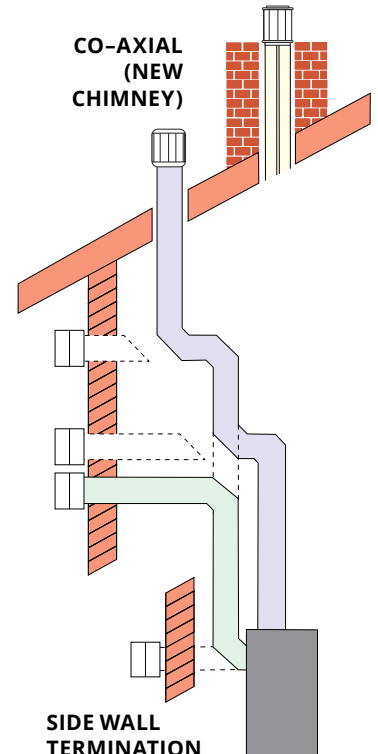

FRAMING

CO-LINEAR (EXISTING CHIMNEY)

CO-AXIAL (NEW CHIMNEY)

SIDE WALL TERMINATION

The maximum vertical vent run on a Horizon/H4 can not exceed 40 feet in total length. The engine can be either top or rear vented.
